Measuring Instruments / Optics / Precision Mechanics

Sensitive measuring instruments rely on robust and reliable packaging in daily use. Plastic cases and boxes of W.A.G. guarantee a safe product protection and comfortable handling during mobile use.

Medical Technology / Pharmaceutical / Dental

Instruments from the medical and dental technology require perfect packaging solutions that guarantee safe transportation. Cases and boxes of several application areas can be equipped with special deep-drawn inserts or foam inlays. The result is a best possible protection of the content itself.

Tools / Machine Parts / Power Tools

High quality tools, power tools and machine parts need robust cases and stable boxes for protection against extreme demands of daily use. Specially - to your preferences - designed and manufactured foam inlays or deep-drawn inserts ensure an all-round protection and offer a comfortable placement and removal of the content.

Advertising / Promotion / Presentation

By their attractive shapes the cases and boxes attract high attention for your products even when they are packed. Matched to your individual design in colour and printing, your product packaging becomes a perfect eye-catcher with a successful advertising effect.

TEKNO

TEKNO

**Timeless design and harmonic shape.
Perfect in function and quality.**

TEKNO - modern brand ambassadors and sales promoters for your products and services.

The fusion of high level functionality and modern design. TEKNO offers protection for sensitive products and attracts high attention as a permanent advertising medium at the same time.

NEW

TEKNO 2007M and
TEKNO 2007S

- ✓ Modern design and highest functionality
- ✓ Permanent advertising medium and brand ambassador
- ✓ Offers protection for sensitive and high value products

TEKNO

In-mould labelling (IML):

New: phototechnically high-end decoration process for the series BEAT, MAMBO and TEKNO.

The TEKNO cases combined with individual foam inlays and/or deep drawn inserts guarantee a maximum protection and a practical arrangement of the content.

TEKNO provides enough space to print your logo or slogan for a perfect advertising effect.

DIXIE

NEW

DIXIE

The case for modern logistics
in euro-pallet dimensions.

DIXIE - the space saver in euro-pallet dimensions offers protection against the challenges of the logistic functions transport, inventory turnover and storage within a supply chain.

DIXIE cases are optimally adapted to modern palett logistics. Ideal for the transport of high quality semi-finished products and finished products that must be protected during storage and transportation.

- ✓ Matched to euro-pallet dimensions
- ✓ Space saving storage and better overview
- ✓ Excellent and stable stackability
- ✓ Convenient handling and easy transport
- ✓ Optimisation of your production processes and increase in productivity

DIXIE

Dividers made of polycarbonate. Robust, transparent with practical twist locks.

DIXIE 86415 in double-walled reinforced frame construction method for high demands guarantees an enormous stability.

Cases in euro-dimensions simplify production processes, save operations and protect your products. Because of DIXIE you can save resources in packaging material, storage capacity and time in packaging, repackaging and sorting. The euro-pallet dimensions guarantee an optimal assembly of the pallets and cost savings in transport and logistics.

Dimensions DIXIE

standard colours: black, blue, silver-grey, anthracite, red, yellow, dark blue

locks: black, blue, silver-grey, anthracite, red, yellow, dark blue

special colours: available on request

material: polypropylene

divider: Polycarbonate, transparent (clear)

All DIXIE sizes can be arranged on the euro-pallet without excess length.

HEAVY

HEAVY

**Quality and function at the highest level.
Attractive and harmonious designed.**

HEAVY - the robust heavy duty case for the tough tasks of daily life.

The unique circulatory sandwich frame construction gives HEAVY highest stability.

- ✓ Modern and powerful design
- ✓ Large useable case volume
- ✓ Functional case
- ✓ Can be used in a wide range of applications

HEAVY

▲ **SOFTTOUCH HANDLE** rubber handle for an optimal comfort whilst carrying

▲ **FEET** distinctive feet to ensure stability

▲ **HINGE** robust full-length hinge

▲ **STACKING FEET** integrated stacking feet provide a save and non-slip stacking

▲ **SANDWICH CONSTRUCTION** highest stability because of circulating double-walled sandwich frame

▲ **KNEE-LEVER LOCKS** robust knee-lever locks ensure that the case remains firmly closed

▲ **DIVIDER** case content can be stored separately by the optional divider. As a result an optimum use of space is guaranteed.

Especially large case content can be packed perfectly in the robust HEAVY. Because of individually - to your preferences - tailored inlays a convenient placement and removal of the content is given. Even in case of high demands the content is optimally protected.

The case surface as well as the case's sides can be printed by screen and pad printing.

Besides the colouration and printing your Corporate Identity can be communicated through all-over labels.

HEAVY

NEW!

Now the HEAVY range can be portable

HEAVY cases now come with the option of a fully equipped trolley system. Comfort and stability are guaranteed.

The trolley can easily be attached to the case and removed again.

One TROLLEY for 7 different HEAVY-sizes. The unique adaptation mechanism of our HEAVY-TROLLEY enables the combination with the models H 4028, H 4032, H 4036, H 4040, H 4044, H 4048 and H 4054.

Thanks to the big wheels and the related ride height, best features for easy transport are given – on plane ground, cobblestones or even stairs and curbstones.

BEAT

BEAT

**Narrow case sizes for
extraordinary products.**

BEAT – the narrow plastic case in high-end design for sales promotion packaging.

BEAT - the revolutionary solution for retail shelves - guarantees a superb product presentation at the POS.

- ✓ Available in 31 narrow case sizes
- ✓ Perfect for longish products
- ✓ Optimal storage of narrow and small products
- ✓ Ideal for merchandising items

BEAT

In-mould labelling (IML)

This modern process opens up a wide range of opportunities for designing BEAT cases. By using IML you can design your BEAT case with individual graphics - totally according to your requirements.

Individual printings or even the own logo of the company can be printed on the BEAT cases via screen or pad printing.

Whether using hard foam or soft foam - the interior of the BEAT case can be tailored to your content.

BEAT 6694

– perfect for postage

- ✓ Standard size cases ideal for postage
- ✓ Permanent reusable packaging
- ✓ Attractive advertising medium which will stand out in the daily post
- ✓ BEAT offers more protection than a conventional envelope
- ✓ Packaging that is always ready for sending

BEAT

▲ SEALING security sealing to protect against thievery

▲ FEET raised feet to ensure stability

▲ EURO HANGER for perfect product presentation on the shelves

▲ HINGE extremely robust for maximum stability

▲ LOCK robust and firm closure

Attractive design of the locks and the case's sides.

- ✓ Customized pad printing can be applied to all W.AG case series
- ✓ Individual locks and design of the case's sides
- ✓ Your logo, slogan or product designation can be printed with high colour force

Inlays

Inlays

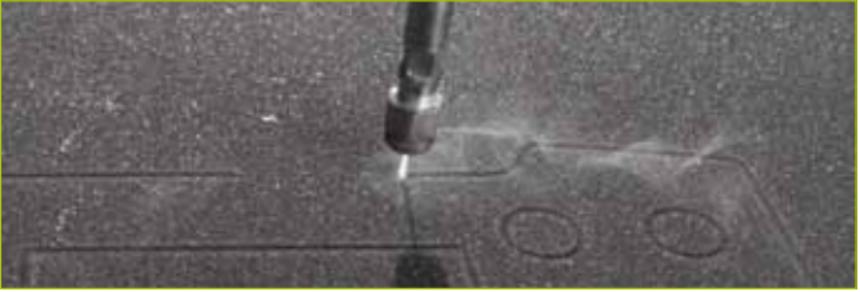

Always individual and perfect in shape and design.

The foam inlays produced by W.AG are designed in its shape, foam quality and processing technology according to the products to be packed.

- ✓ Optimal presentation and protection of your content
- ✓ Customized according to your requirements
- ✓ Convenient placement and removal of the content

Design options:

- bespoke foam → combined inlays which can be tailored to the individual sizes and uses of your products
- profile foam → secure the surface of the contents and provide a perfect hold

► PU-soft foam

► PE-hard foam

► deep-drawn inserts

	PU-soft foam	PE-hard foam	deep-drawn inserts
compressive strength	•	•••••	•
resistance to high temperatures	•••••	•••	•
resistance to low temperatures	•••	•••	•••
solvent resistance	•	•	•••
light resistance	•	•••	•
acid resistance	•	•	•
flammability	•••*	•••*	•
water repellency	•	•••••	•••••
sound absorption	•••••	•	•••
harmlessness to health	•••••	•••••	•••••
shock resistance	•••	•••••	•

••••• = high
••• = middle
• = low

* In consideration of the applied testing methods, foams equipped with special additives can achieve flame retardant properties.
